## **Clean-up Information**

The City of Lansing believes that strong neighborhoods are our key to success. It is our goal to strengthen city and neighborhood relationships. The goal of the Neighborhood Cleanup program is to help neighborhoods that are working together to improve the quality of neighborhood life.

Citizen participation and decision-making is crucial to improving our neighborhoods, especially now that the city is facing budget and staffing cuts.

With this in mind, the city's Development Office will be investing Neighborhood Clean-up funds in neighborhoods that have developed improvement goals and are implementing a neighborhood plan.

Neighborhood Associations/Groups that would like to organize a cleanup must submit an application to the city's Development Office. Applications will be reviewed, awarded, and scheduled by city and Lansing Neighborhood Council staff.

The cleanups provide an incentive to help people who are organizing to improve their neighborhood, making an investment in a betterment project of their own, and have not received clean-up funds within at least the past twelve-month period.

**Neighbors should get together and pickup litter within the neighborhood and railroad tracks before the scheduled cleanup date.**

1. **A minimum of 5 volunteers per truck is required.** (Usually one truck is scheduled for every three streets.) How many volunteers do you plan on having help with this event?
2. How do you recruit volunteers?
3. Please provide a list of volunteers with their phone numbers and addresses on the back of this sheet.
3. Briefly describe how you plan on making sure trash is not "brought-in" from outside the neighborhood for this event? Cleanups can last 2-6 hours, so making sure no outside trash is brought in is necessary.
4. What are your neighborhood boundaries? Please specify the neighborhood or area in which your group is located. Include major streets in your description. **Please provide a map of where you would like to coordinate placement of roll-offs, drop sites, or pickup routes.**
